ABOUT *Me*

With years of global experience in manufacturing and steel fabrication, I'm now focused on remote work. I'm enhancing skills and expanding into Virtual Assistant.

As a Virtual Assistant, I offer a range of services, including UI/UX Design, graphic design, and video editing, all aimed at helping entrepreneurs expand their reach and attract more customers.

I started exploring UI/UX design in early 2023 when I was introduced to Figma file and used it to develop websites based on prepared designs. Currently, I am enhancing my skills by shifting from solely implementing designs from Figma to also mastering the process of creating UI/UX designs directly within the tool.

MY SERVICE

Every business is unique, and so are the services I offer. I provide custom solutions that fit your specific needs.

UI / UX JOURNEY

Elements Animation

The screenshot displays the Axure RP software interface, which is used for creating interactive prototypes. The interface is divided into several panels:

- Left Panel:** Contains a sidebar with a search bar and a list of project files. The file "Slide 16:9 - 2" is selected.
- Top Panel:** Shows the "Animations" tab, which is used to define the timing and behavior of animations. It includes a timeline and a list of animation settings.
- Center Panel:** Displays the prototype design. It features a dark-themed header with logos for Tesla, Apple, Airbnb, Spotify, and Stripe. Below the header, there is a section titled "Add interactions & animations" with a list of instructions:
 1. Animate the "Join Today" button in the navbar with a hover change.
 2. On page load, animate the headline and sub-headline.
 3. Animate something in the green console section.
 4. BONUS: Make the logos at the bottom infinitely scroll as a marquee.
- Right Panel:** Contains the "Prototype settings" section, which includes options for the device (set to "No device") and a color code (000000). It also has a "Removing a connection" section and a "Running your prototype" section.
- Bottom Panel:** Shows a green console area with a terminal-like interface. It contains the text "console> git clone laracode" and an "EXECUTE ;" button. Below the console, there is a dark-themed footer with logos for Tesla, Apple, Airbnb, Spotify, and Stripe.

The interface also includes a top toolbar with various icons for navigation and editing, and a bottom toolbar with icons for different tool types.
