prayogo.santoso@gmail.com

ABOUT *Me*

With a strong foundation in manufacturing and steel fabrication working environment across global industries, I've transitioned into the tech world, focusing on remote work and building a career in manual software testing.

As a Manual QA Tester, I'm passionate about ensuring software performs flawlessly before it reaches users. I specialize in identifying bugs, improving functionality, and testing usability across different platforms. My attention to detail and methodical approach help development teams deliver reliable, user-friendly products.

I began exploring the tech field through my initial interest in web programming. Along the way, I equipped myself with knowledge in full-stack development and UI/UX design. Today, I'm focused on sharpening my QA skills to help deliver high-quality, user-centric digital experiences.

MY SERVICE

Every business is unique, and so are the services I offer. I provide custom solutions that fit your specific needs.

PORTFOLIO

<https://psantoso13.netlify.app/>

E-Commerce Website Testing | Online Course Final Project

March 2025 – April 2025

Project Title: GrowiaShop Website - <https://5nags3iycnjh547.growia.education/>

Project Duration: 2 Months

Description:

- Developed and executed manual test cases for an e-commerce website, covering key functionalities such as user registration, product search, and checkout process.
- Identified and reported bugs using excel sheets, ensuring clear and concise documentation for the development team.
- Conducted regression testing to ensure new code changes did not impact existing functionality.
- Developed a test summary report to outline the testing process, findings, and recommendations.

Automatic Testing | Online Course Project

February 2025

Project Title: Automatic Testing

Project Duration: 1 Month

Description:

- Developed and executed automatic testing for <https://katalon-demo-cura.herokuapp.com/> and <https://tutorialsninja.com/demo/index.php>
- Automatic testing done by utilising xpath as locator using IntelliJ IDEA with Selenium

API Testing | Online Course Project

January 2025

Project Title: API Testing – <https://gorest.co.in/>

Project Duration: 1 Month

Description:

- API testing with Postman
- Testing GET Method using Endpoint `:/public/v1/users?page=`
- Testing POST Method using Endpoint `:/public/v1/users`
- Testing PUT Method using Endpoint `:/public/v1/users/id_user`
- Testing DELETE Method using Endpoint `:/public/v1/users/id_user`

E-Commerce Website Testing – Convert PRD to test Case document | Course Project

December 2024

Project Title: Converting PRD to test Case document

Project Duration: 1 Month

Description:

- Developed manual test cases for an e-commerce website, covering key functionalities such as user registration, product search, and checkout process.

Web Testing - Defect Management | Online Course Project

November 2024

Project Title: Defect Management

Project Duration: 1 Month

Description:

- Identified and reported bugs using JIRA, ensuring clear and concise documentation for the development team

Epic / Story with JIRA

The screenshot displays the Jira project timeline view for the project 'January2025-MQA34'. The interface includes a left sidebar with navigation options like 'Your work', 'Recent', 'Starred', 'Apps', 'Plans', 'Projects', 'Starred', 'Learn Jira in 10 minut...', 'Recent', 'January2025-MQA34', 'My Scrum Project', 'View all projects', 'Filters', 'Dashboards', 'Teams', and 'Give feedback on the ne...'. The main content area shows the project name 'January2025-MQA34' and a search bar. Below the search bar, there are tabs for 'Summary', 'Timeline' (selected), 'Backlog', 'Board', 'Forms', 'Code', 'Pages', and 'Shortcuts'. The timeline view displays a grid with columns for 'December '24', 'January', and 'February'. A list of sprints is shown on the left, including 'JAN25MQA34-1 Login', 'JAN25MQA34-2 Product', 'JAN25MQA34-3 Detail Product', 'JAN25MQA34-4 Keranjang', 'JAN25MQA34-5 Informasi pembeli dan pen...', and 'JAN25MQA34-6 Checkout belanja'. The timeline grid shows the duration of these sprints as horizontal bars. At the bottom, there are navigation controls for 'Today', 'Weeks', 'Months' (selected), 'Quarters', and a 'Quickstart' button.

PROJECT - APPLICATION

Automatic Testing with Selenium in IntelliJ IDEA

The screenshot displays the IntelliJ IDEA interface during a Selenium test run. The **Project** view on the left shows the file structure: `katalonGrowia` (D:\Remote Work\$\Growia\Manual QA\09-) containing `.idea`, `src` (with `main` and `test` subfolders), `target`, `.gitignore`, `pom.xml`, `External Libraries`, and `Scratches and Consoles`. The `test` folder is expanded, showing the `java` subfolder and the `katalonSeleniumTest` class. The `Run` view at the bottom shows the test execution results for `katalonSeleniumTest.loginTest`. The test passed successfully, taking 8 seconds and 471 milliseconds. The `Run` view also shows the test suite details: `Default Suite` with 1 test passed, 0 failures, and 0 skips. The `Run` view also shows the test suite details: `Default Suite` with 1 test passed, 0 failures, and 0 skips. The `Run` view also shows the test suite details: `Default Suite` with 1 test passed, 0 failures, and 0 skips.

```
11
12 import static org.bouncycastle.cms.RecipientId.password;
13
14 public class katalonSeleniumTest {
15
16     WebDriver driver; 10 usages
17
18     @Test
19     public void loginTest(){
20
21         //open browser
22         WebDriverManager.chromedriver().setup();
23         driver = new ChromeDriver();
24         driver.manage().window().maximize();
25         driver.get("https://katalon-demo-cura.herokuapp.com/");
26         WebDriverWait wait = new WebDriverWait(driver, Duration.ofSeconds(30));
27
```

Run `katalonSeleniumTest.loginTest`
